**CERTIFICATION**

**VILLAGE OF CANISTEO**

**Office of the Village Clerk**

I, **MARION CAMPBELL**, Village Clerk of the Village of Canisteo, hereby certify that the chapters contained in this volume are based upon the original local laws, ordinances and resolutions of the Board of Trustees of the Village of Canisteo, and that said local laws, ordinances and resolutions, as revised and codified, renumbered as to sections and rearranged into chapters, constitute the Code of the Village of Canisteo, County of Steuben, State of New York, as adopted by local law of the Village Board on April 3, 1989.

Given under my hand and the Seal of the Village of Canisteo, County of Steuben, State of New York, this third day of April 1989 at Canisteo, New York.

s/**MARION CAMPBELL**

.....  
Village Clerk

## **PREFACE**

Since the first village officials were elected in 1873, the Village of Canisteo has, over the years, passed through a process of legislative change common to many American communities. While only a few simple laws were necessary at the time of the establishment of the village, subsequent growth of the community, together with the complexity of modern life, has created the need for new and more detailed legislation for the proper function and government of the village. The recording of local law is an aspect of municipal history, and as the community develops and changes, review and revision of old laws and consideration of new laws, in the light of current trends, must keep pace. The orderly collection of these records is an important step in this ever-continuing process. Legislation must be more than mere chronological enactments reposing in the pages of old records. It must be available and logically arranged for convenient use and must be kept up-to-date. It was with thoughts such as these in mind that the Village Board ordered the following codification of the village's legislation.

### **Contents of Code**

The various chapters of the Code contain all currently effective legislation (local laws, ordinances and certain resolutions) of a general and permanent nature enacted by the Village Board of the Village of Canisteo, including revisions or amendments to existing legislation deemed necessary by the Village Board in the course of the codification.

### **Division of Code**

The Code is divided into parts. Part I, Administrative Legislation, contains all village legislation of an administrative nature, namely, that dealing with the administration of government, that establishing or regulating municipal departments and that affecting officers and employees of the municipal government and its departments. Part II, General Legislation, contains all other village legislation of a regulatory nature. Items of legislation in this part generally impose penalties for violation of their provisions, whereas those in Part I do not.

## **Grouping of Legislation and Arrangement of Chapters**

The various items of legislation are organized into chapters, their order being an alphabetical progression from one subject to another. Wherever there are two or more items of legislation dealing with the same subject, they are combined into a single chapter. Thus, for example, all legislation pertaining to the regulation of streets and sidewalks may be found in Part II, in the chapter entitled "Streets and Sidewalks." In such chapters, use of Article or Part designations has preserved the identity of the individual items of legislation.

### **Table of Contents**

The Table of Contents details the alphabetical arrangement of material by chapter as a means of identifying specific areas of legislation. Wherever two or more items of legislation have been combined by the editor into a single chapter, titles of the several Articles or Parts are listed beneath the chapter title in order to facilitate location of the individual item of legislation.

### **Reserved Chapters**

Space has been provided in the Code for the convenient insertion, alphabetically, of later enactments. In the Table of Contents such space appears as chapters entitled "(Reserved)." In the body of the Code, reserved space is provided by breaks in the page-numbering sequence between chapters.

### **Pagination**

A unique page-numbering system has been used, in which each chapter forms an autonomous unit. One hundred pages have been allotted to each chapter, and the first page of each is the number of that chapter followed by the numerals "01." Thus, Chapter 6 begins on page 601, Chapter 53 on page 5301, etc. By use of this system, it is possible to add or to change pages in any chapter without affecting the sequence of subsequent pages in other chapters, and to insert new chapters without affecting the existing organization.
