

## **Numbering of Sections**

A chapter-related section-numbering system is employed, in which each section of every item of legislation is assigned a number which indicates both the number of the chapter in which the legislation is located and the location of the section within that chapter. Thus, the first section of Chapter 6 is § 6-1, while the fourth section of Chapter 53 is § 53-4. New sections can then be added between existing sections using a decimal system. Thus, for example, if two sections were to be added between §§ 53-4 and 53-5, they would be numbered as §§ 53-4.1 and 53-4.2.

## **Scheme**

The Scheme is the list of section titles which precedes the text of each chapter. These titles are carefully written so that, taken together, they may be considered as a summary of the content of the chapter. Taken separately, each describes the content of a particular section. For ease and precision of reference, the Scheme titles are repeated as section headings in the text.

## **Histories**

At the end of the Scheme in each chapter is located the legislative history for that chapter. This History indicates the specific legislative source from which the chapter was derived, including the enactment number (e.g., ordinance number, local law number, bylaw number, resolution number, etc.), if pertinent, and the date of adoption. In the case of chapters containing Parts or Articles derived from more than one item of legislation, the source of each Part or Article is indicated in the History. Amendments to individual sections or subsections are indicated by histories where appropriate in the text.

## **Codification Amendments and Revisions**

New chapters adopted or sections amended or revised during the process of codification are specifically enumerated in chapter Histories with reference to "Ch. 1, General Provisions," where the

legislation adopting this Code and making such revisions will appear after final enactment. Sections so amended or revised are also indicated in the text by means of Editor's Notes referring to the chapter cited above.

### **General References; Editor's Notes**

In each chapter containing material related to other chapters in the Code, a table of General References is included to direct the reader's attention to such related chapters. Editor's Notes are used in the text to provide supplementary information and cross-references to related provisions in other chapters.

### **Appendix**

Certain forms of local legislation are not of a nature suitable for inclusion in the main body of the Code but are of such significance that their application is community-wide or their provisions are germane to the conduct of municipal government. The Appendix of this Code is reserved for such legislation and for any other material that the community may wish to include.

### **Index**

The Index is a guide to information. Since it is likely that this Code will be used by persons without formal legal training, the Index has been formulated to enable such persons to locate a particular section quickly. Each section of each chapter has been indexed. The Index will be supplemented and revised from time to time as new legislation is added to the Code.

### **Instructions for Amending the Code**

All changes to the Code, whether they are amendments, deletions or complete new additions, should be adopted as amending the Code. In doing so, existing material that is not being substantively altered should not be renumbered. Where new sections are to be added to a

chapter, they can be added at the end of the existing material (continuing the numbering sequence) or inserted between existing sections as decimal numbers (e.g., a new section between §§ 45-5 and 45-6 should be designated § 45-5.1). New chapters should be added in the proper alphabetical sequence in the appropriate division or part (e.g., Part I, Administrative Legislation, or Part II, General Legislation), utilizing the reserved chapter numbers. New chapter titles should begin with the key word for the alphabetical listing (e.g., new legislation on abandoned vehicles should be titled "Vehicles, Abandoned" under "V" in the table of contents, and a new enactment on coin-operated amusement devices should be "Amusement Devices" or "Amusement Devices, Coin-Operated" under "A" in the table of contents). Where a reserved number is not available, an "A" chapter should be used (e.g., a new chapter to be included between Chapters 45 and 46 should be designated Chapter 45A). New Articles may be inserted between existing Articles in a chapter (e.g., adding a new district to the Zoning Regulations) by the use of "A" Articles (e.g., a new Article to be included between Articles XVI and XVII should be designated Article XVIA). The section numbers would be as indicated above (e.g., if the new Article XVIA contains six sections and existing Article XVI ends with § 45-30 and Article XVII begins with § 45-31, Article XVIA should contain §§ 45-30.1 through 45-30.6).

### **Supplementation**

Supplementation of the Code will follow the adoption of new legislation. New legislation or amendments to existing legislation will be included and repeals will be indicated as soon as possible after passage. Supplemental pages should be inserted as soon as they are received and old pages removed, in accordance with the Instruction Page which accompanies each supplement.

### **Acknowledgment**

The preparation of the Code of the Village of Canisteo has required much time and effort on the part of village officials in the review and approval of existing and proposed legislation. The assistance of Marion Campbell, Village Clerk-Treasurer, is particularly acknowledged. The dedication on the part of the village to the tasks involved in producing this Code — the research necessary, the holding of

meetings with our editorial staff and the reviewing of the material — has made it an outstanding achievement of the Village of Canisteo.

The codification of the legislation of the Village of Canisteo reflects an appreciation of the needs of a progressive and expanding community. As in many other municipalities, officials are faced with fundamental changes involving nearly every facet of community life. Problems increase in number and complexity and range in importance from everyday details to crucial areas of civic planning. It is the profound conviction of General Code Publishers Corp. that this Code will contribute significantly to the efficient administration of local government. As Samuel Johnson observed, "The law is the last result of human wisdom acting upon human experience for the benefit of the public."
